

| Question | E Answers | Marks | Additional Guidance |
| :---: | :---: | :---: | :---: |
| $1 \begin{array}{ll}1 & (c) \\ & \\ 2\end{array}$ <br> 3 <br> 4 <br> 5 <br> 6 <br> 7 8 <br> 9 10 <br> 11 <br> 12 <br> 13 <br> 14 <br> 15 <br> 16 | upper epidermis is transparent / thin ; lets light through to palisade, cells / mesophyll ; <br> palisade cells with many chloroplasts ; A lots of chlorophyll absorb as much light as possible / AW ; <br> palisade cells arranged lengthways ; less cell walls to scatter light / AW ; <br> palisade cells close together ; <br> absorb as much light as possible ; <br> spaces in spongy mesophyll ; <br> allow (diffusion of) carbon dioxide to mesophyll cells ; <br> A each cell has surface for gas exchange <br> guard cells / stomata ; <br> allow (diffusion of) carbon dioxide into leaf ; <br> xylem ; <br> to provide water (as raw material) ; <br> phloem; <br> to remove products of photosynthesis ; | [2+2] | NB: Paired MPs (i.e. explanation must be linked to correct feature) <br> If a letter is given rather than named feature then allow the explanation mark if relevant <br> MP3 - need ref. to more, lots of / AW <br> MP4 - light qualified - much as possible etc. |
| (d) (i) | sucrose ; R sugar <br> amino acids ; <br> hormones / plant growth substances / auxin(s) ; | [max 2] |  |
| (ii) | leaf; <br> two of the following for one mark <br> stem, root, bud, flower, fruit, seed, storage organ ; | [2] |  |
| [Total: 13] |  |  |  |

| Question |  |  | E Answers <br> root hairs ; <br> large surface area; <br> water moves, from high water potential to low water potential / down water potential gradient ; by osmosis ; <br> through partially permeable membrane ; protein pores ; |  | Marks | Additional Guidance |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2 | (a) |  |  |  | [max 3] | A water concentration |
|  | (b) | (i) |  | crease in growth; scription of curve ; e.g. sigmoid growth at 600 units ; y other figure from the graph ; | [3] | MP2 linked with MP1 i.e. growth |
|  |  | (ii) | $\begin{aligned} & 1 \\ & 2 \\ & 3 \\ & 4 \\ & 5 \\ & 6 \\ & 7 \\ & 8 \\ & 9 \end{aligned}$ | salt lowers the water potential ; plants absorb less water ; loss of turgidity / AW ; no water for new cells ; no, elongation / AW, of cells ; no / less, water for chemical reactions ; no / less, water for photosynthesis ; no / less, water for transport ; stomata close ; | [max 4] | A hypertonic A water moves out |
|  | (c) |  |  | 4.0 - phosphate ; 11.0 - iron ; | [2] |  |

| Question |  |  | E Answers | Marks | Additional Guidance |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 2 | (d) | $\begin{aligned} & 1 \\ & 2 \\ & 3 \\ & 4 \\ & 5 \end{aligned}$ | each ion to max 3 <br> magnesium ions <br> needed for making chlorophyll ; <br> without chlorophyll plant, not green / yellow ; <br> cannot absorb (much) light ; <br> little / no, (energy for) photosynthesis ; <br> little / no, sugars / organic compounds produced / energy available ; <br> nitrate ions <br> needed to make amino acids; <br> amino acids to proteins ; <br> protein needed for growth ; <br> suitable use of protein ; <br> e.g. membranes / enzym | [max 4] | A proteins or nucleic acids <br> $\mathbf{R}$ 'hormones' A suitable use for nucleic acids e.g. genetic material |
|  |  |  |  | tal: 16] |  |

(a) (i) nitrogen, fixation / fixing ;
(ii) decomposition / decay / putrefaction / rotting; deamination / ammonification ; nitrification ; A nitrifying, oxidation of, ammonia / nitrite
(b) award two marks for correct answer (24), if answer incorrect or no answer award one mark for correct working, look out for x 100
$28.8 / 120 \times 100 ;$
24 (\%) ;
(c) proteins ;
enzymes;
hormones;
nucleic acid / DNA / RNA ;
membranes;
muscle ;
growth / new cells / new tissues;
repair / replacement;
respiration / release energy ;
AVP;
AVP;
(d) in animals

1 deamination;
2 ammonia;
3 urea;
4 lost in urine / excreted ;
5 lost in faeces / egested / not absorbed;
in field
6 recycled / nitrification, to nitrate (ions) ;
7 nitrate, taken up / absorbed, by plants ;
8 denitrification / nitrate to nitrogen (gas) or $\mathrm{N}_{2}$;
9 leached / run-off (from field), into, rivers / streams / lakes / freshwater ;
10 taken up / absorbed, by aquatic plants / algal bloom ;
(e) 1 increase in (human) population / demand for energy ;

2 combustion of, fossil fuels / named fossil fuel / wood;
3 industrialisation / factories / power stations;
4 transport ;
5 intensive farming ;
6 deforestation ;
7 burning of forests ;
8 less plant life to absorb carbon dioxide from the atmosphere ;
9 ref to photosynthesis ;
10 AVP;
$\mathbf{R}$ increase in $\mathrm{CO}_{2}$ because of respiration of humans

| 4 (a) (i) | glass tank to max 1 <br> acts as heat filter / absorbs heat from lamp / reduces heat effect of the lamp / AW ; <br> maintain constant temperature / make sure temperature is not another variable ; <br> syringe <br> reposition the air bubble / return air bubble to top of tubing / put the bubble into the tube ; | must be about heat <br> A readjust the bubble $\mathbf{R}$ refs. to water in the tube |
| :---: | :---: | :---: |
| (i) |  | $\mathbf{R}$ oxygen / gas, is product of respiration <br> note that it is the water that is being pushed by the gas collecting at the top of the tube <br> A gives pressure to force water down tube |
| (b) (i) | 1.4; [1] |  |
| (ii) | all points plotted accurately ; <br> curved or straight line of best fit / straight lines between points; ignore if line continues beyond first and last points because of (c)(i) $\boldsymbol{R}$ if line goes to 0 | allow a straight line of best fit that is close to the plotted points |
| (c) (i) | $6.0-7.0$; $\mathbf{R}>7.0$ allow ecf from the graph if line goes to 0 $0-0.6 ; \quad \mathbf{R}>0.6$ | ignore what is shown by extrapolation on the graph unless awarding ecf from the graph |
| (ii) | 1 (increase distance gives) decrease light (intensity); ORA <br> 2 ref. to light energy ; <br> 3 absorbed by, chlorophyll / chloroplast ; <br> 4 light (intensity) is limiting (factor) ; | A 'amount of light' in this answer A even if 'light' and 'energy' are separated in answer look for word 'limiting' do not allow 'limited' |
|  | [Total: 13] |  |
